

HANDLING INSTRUCTIONS

Product: Lunch Quesadillas

Code Number: W31100 (cheese quesadilla)
W79100 (pork chile verde quesadilla)

Rose & Shore quesadillas may be heated from a refrigerated or frozen state. The product is packaged in film that can withstand oven temperatures up to 400 degrees F but we recommend a lower heating temperature.

THAWING INSTRUCTIONS

1. Remove product from case and place on trays.
2. Place in refrigerator for 24 to 48 hours prior to serving.
3. DO NOT THAW AT ROOM TEMPERATURE.

HEATING INSTRUCTIONS

1. Preheat the convection or conventional oven to 275 degrees F.
2. Avoid using higher temperatures. Higher temperatures can cause the cheese to melt and run out the quesadilla prior to completely heating the middle.
3. Place trays of wrapped quesadillas in oven.
4. For refrigerated product, heat 10 to 12 minutes.
5. For frozen product, heat 18 to 22 minutes.
6. Probe the center of the quesadilla to confirm that an internal temperature of 140 degrees F is reached. Heat further if required.
